- 6-foot power cord
- UL Certified to ensure safety
- Money-back guarantee
- **Product # 9250**

Eliminates
Stringing

AdTech's patented needle valve nozzle makes the HD 250 NV the clear choice for precise glue lines with perfect cut-offs.

Patented
Dripless
Nozzle

AdTech's **HD250 NV** is a true standout among industrial-grade hot melt glue guns, and a go-to tool for contractors and tradesmen in many fields of work. The "NV" stands for "needle valve," an exclusive AdTech design feature which allows the user to lay down precise, uniform glue lines, with perfect cut-offs — and no more dripping and stringing! This exceptional quality tool sports cushion-padded grips, a removable wire base stand, and an easy-squeeze trigger, allowing for extended work times with superior results. The 225 watt PTC heating system allows for quick heat-up times to its preset temperature of 410°F, and the ability to dispense 3.2 pounds of glue per hour.

Output / Hour
3.2 lbs.
